The 'Beautification' of Ritual Child Slaughter

Last week we did an in-depth study on the current status of the **Guillotines** that are **Pre-Positioned Across America** *(link provided to the left)*

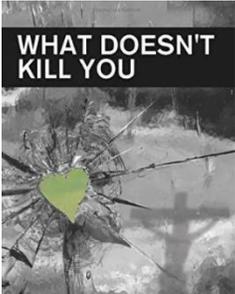

During that class I highlighted segments of **Celeste Solum's** study entitled "**Globalist Depopulation Agenda About To Go Viral**" and asked that everyone listen to it in its entirety on their own personal time. *(link to that video on the left)*

If you were like most of us, we shut down after **Mike Adams** thanked **Celeste** for being a part of his program.

I received a call from “**Helen on Wheelz**”, who is a member of our group and a trucker who keeps us updated on the flow of goods across our country. (*She also authored the book “What Doesn’t Kill You” which can be purchased on Amazon.*)

Helen was quite upset and felt certain that I had not caught the very last part of that video, because If I had, she was sure I would have told her about it.

Admittedly, I thought the video ended after Mike had finished but boy was I wrong. What I listened to was more shocking than anything I have ever heard, and **this is the topic of our study tonight.**

The video we are going to see is 12 minutes 8 seconds long and I am giving you **fair warning**. If you do not want to be shaken to your core, this would be a good time hop off of Zoom and go back to your “happy place” as Celeste calls it.

How many of you would agree that this is one of the most **horrendous, shockingly disturbing videos you have ever seen**. It is so sad to see our world in the state that it is currently in but Celeste is right. **This is no time to be complacent.**

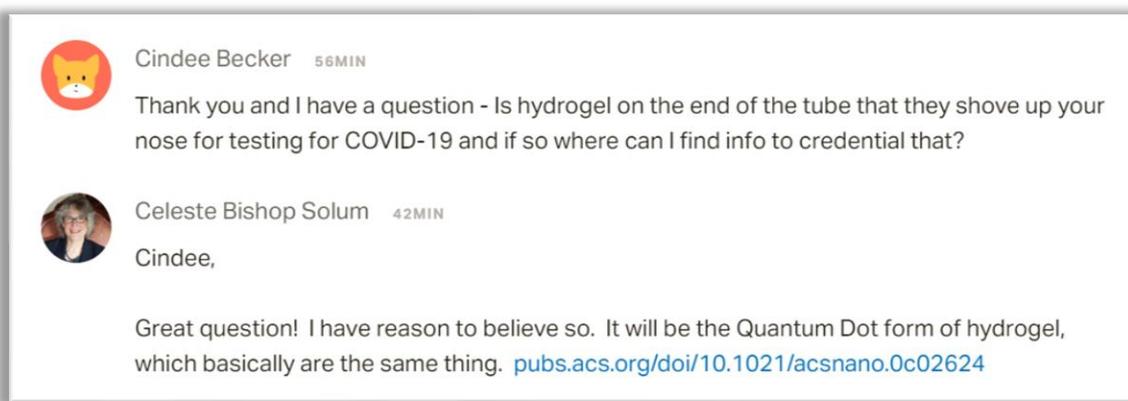

We are literally in the fight for our lives and the lives of our children.

Her last statement was **“If you do not comply with every and all the demands of the State, you will be imprisoned in your house”**.

Before we get into the article she was discussing, I want to let you know that I had contacted Celeste about the COVID-19 testing. My question to her was, **“is hydrogel on the end of the tube that they shove up your nose.**

Her response is below:

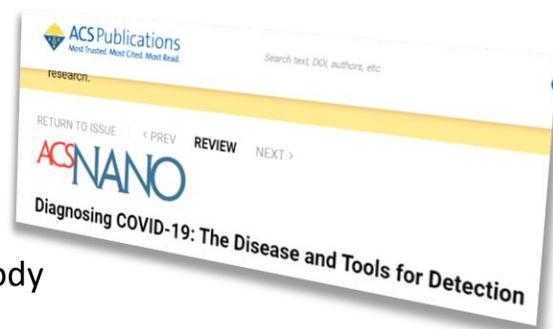

Cindee, Great question! **I have reason to believe so.** It will be the **Quantum Dot form of hydrogel**, which basically are the same thing.

Each unique emission codes for the capturing DNA or antibody on the bead surface.

A positive detection occurs when a patient’s sample contains a sequence or antigen that links the bead’s capture molecule with a secondary probe (labeled with fluorophore with a different emission than the beads).

There are **barcoded-bead multiplex panels** for diagnosing cystic fibrosis and respiratory diseases.(65,66)

Barcoded-bead assays/systems are engineered for laboratory use, but **efforts are underway to develop them for the point-of-care**. However, the difficulty lies with the design of the readout device.

The complex barcode signal, which stems from the organic molecules, **requires a unique instrument design to discern the codes**.

Researchers are working on overcoming this limitation by using **inorganic quantum dots for barcoding**, which **enables battery-operated excitation and a smartphone camera to capture the emission signal**.

Kim et al. have demonstrated clinical specificity and sensitivity of 91% and 95% using quantum dot barcodes for diagnosing patients with hepatitis B after isothermal reverse polymerase amplification.

(63) Panels of barcodes can be formulated into tablets for easy dissemination of reagents.

(67) **Barcode panels can be designed for respiratory viruses, coronaviruses, sexually transmitted diseases, and/or symptoms (e.g., fever, cough, diarrhea)**.

Please shout from the housetop not to get tested, vaccine, or sensor. I have new info coming out this week but today is canning and garden day.

Blessings,
Celeste

Hillary Clinton It Takes A Village Speech at the 1996 DNC

https://www.youtube.com/watch?time_continue=36&v=ALaG4u0buws&feature=emb_logo

Hillary Clinton made a famous speech and wrote a book, *It Takes a Village*. What she meant is that **it takes a global village to raise a child**.

Behind these pleasant words of community is a **nefarious agenda that ends with the religious ritual slaughter of our children**.

Do you understand the **World Economic Forum** and **UN Sustainable Goals** **do not include children**? They are our future, so

why would they not include them?

<https://www.synbio-tech.com/>

Goal is to **eradicate old world children** and **introduce/replace** in 2030 (possibly before) with **New who are engineered, augmented, and enhanced, SynBio** entities, that will become the **super soldiers of 2050**. To

accomplish this goal, the remnants of Old-World Humans must be eliminated. That is why babies are aborted, and children will be seized. Not for reeducation, but for sex trafficking and religious ritual slaughter.

OLD HUMAN VS. NEW HUMAN

*to effectively engage these **"New Humans"** and prepare them for combat on future battlefields, the Army must discard old paradigms of learning that no longer resonate and embrace more effective means of instruction."*

Where humans today are born into a world with ubiquitous internet, hyper-

connectivity, and the Internet of Things, each of these elements are generally external to the human...these technologies likely will have converged and will be embedded or integrated into the individual with connectivity literally on the tips of their fingers.

*These **New Humans** will be accustomed to the use of artificial intelligence (AI) to augment and supplement decision-making in their everyday lives. AI will be responsible for keeping them on schedule, suggesting options for what and when to eat, delivering relevant news and information, and serving as an **on-demand embedded expert**.*

Based on these trends, there likely will be in the future an even greater technological wedge between New Humans and Old Humans.

***New Humans** will be information assimilators, where **Old Humans** were information gatherers.*

New Humans will carry targeted, predictive, and continuous learning assistants with them. These assistants will observe, listen, and process everything of relevance to the learner and then deliver them information as necessary.

Faith Lesson: Why do the heathen rage, and the people imagine a vain thing? The kings of the earth set themselves, and the rulers take counsel together, against the LORD, and against his anointed, saying, Let us break their bands asunder, and cast away their cords from us. He that sitteth in the heavens shall laugh: the LORD shall have them in derision. - Psalms 2:1

END OF DAYS NEAR THE RETURN OF JESUS

This era will be the darkest terms of societal corruption:

And the brother shall betray his brother unto death, and the father his son; and children shall rise up against the parents, and shall work their death . Mark 13:12

But understand this: In the last days terrible times will come. For men will be lovers of themselves, lovers of money, boastful, arrogant, abusive, disobedient to their parents, ungrateful, unholy, unloving, unforgiving, slanderous, without self-control, brutal, without love of good, 2 Timothy 3

In summary:

- Arrogance will increase;
- Prices will rise;
- Grapes will be abundant but wine will be costly;
- The government will turn into heresy; and there will be no reproach.
- The meeting place biblical scholars will become a bordello;
- The Galilee (lands) will be destroyed;
- The highland (lands) will lie desolate;
- The border people will wander from city to city and none will show them compassion;
- The wisdom of authors will stink;
- Sin-fearing people will be detested;
- Truth will be missing;
- Young men will humiliate the elderly;
- The elderly will stand while the young sit;

- Sons will revile their fathers; daughters will strike their mothers, brides will strike their mothers-in-law; and a man's enemies will take over his house.
- The face of the generation is like the face of a dog!
- Sons have no shame in front of their fathers;

On whom can one depend? Only upon our father in heaven and His Son, Jesus Christ.

GLOBAL MANAGEMENT

The dirty and seeded global management affair comes to US soil with some controversial legislation:

Abortion Legal: January 22, 1973, the Supreme Court in Roe v. Wade
https://en.wikipedia.org/wiki/Roe_v._Wade

Anti-Animal agenda: Began the importation of Nazi doctors to Plum Island Biological Warfare Facility but intensified with the global kick off on October 31, 2005 beginning the implementation of policies whereby only wildlife or sustainable synthetic animals allowed.

Anti-Plant Agenda: Began the importation of Nazi doctors to Plum Island Biological Warfare Facility but intensified with the global kick off on October 31, 2005 beginning the implementation of policies whereby nothing from nature and synthetic plans as drug delivery systems and humanized plants.

Infanticide In 2019 codified abortion up until the moment of birth with the **Reproductive Health Act**, One World Trade Center was then lit pink to celebrate Gov. Andrew Cuomo's signing the bill into law. VA: The Repeal Act, to allow for an abortion to occur in the third trimester for any reason. Virginia governor, in defending late term abortion, advocated for infanticide.

MANAGING THE PLANETARY PLANTATION: THE UN TERRESTRIAL ANIMAL HEALTH CODE

https://www.oie.int/index.php?id=169&L=0&htmfile=glossaire.htm#terme_code_terrestre

The globalists believe that they are divine and the planetary managers. They are the "anointed" few. As the beast arises animals are on the forefront of the globalist minds. What are the rest of us humans, in their eyes? The Terrestrial Animal Health Code illuminates their view of us:

For the purposes of the ***Terrestrial Code*** (planet and biological life management) ([see link above](#))

Animal, means a mammal (**that includes humans** friends), reptile, bird or bee.

Animal for breeding or rearing means a domesticated or **confined *animal*** which is not intended for slaughter within a short time.

Animal for slaughter means an *animal* intended for slaughter within a short time, under the control of the relevant **Veterinary Authority**.(UN)

Animal handler means a person (entity) with a knowledge of the behavior and needs of ***animals*** who, with appropriate experience and a professional and positive response to an *animal's* needs, can achieve effective management and good welfare. Competence should be gained through formal training or practical experience.

Animal health management means a system designed to optimize the physical and behavioral health and welfare of ***animals***. It includes the prevention, treatment and control of diseases and conditions affecting the

individual *animal* and *herd* or *flock*, including the recording of illness, injuries, mortalities and medical treatments where appropriate.

Animal health status means **the status of a country, *zone* or *compartment*** with respect to an animal disease in accordance with the criteria listed in the relevant disease-specific chapter or Chapter 1.4. of the ***Terrestrial Code.***

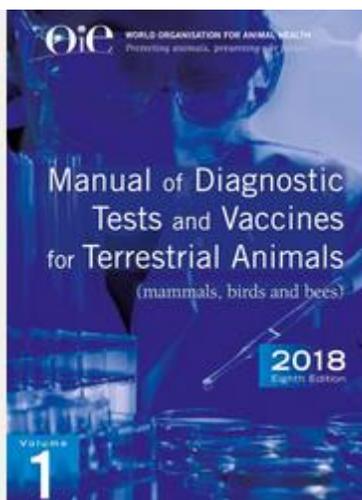

Animal identification means the **combination of the identification and *registration of an animal* individually**, with a **unique identifier**, or **collectively by its *epidemiological unit or group***, with a unique group identifier.

Animal identification system means the inclusion and linking of components such as **identification of *establishments or owners***, the **persons responsible** for the ***animals, movements*** and **other records** with ***animal identification.***

Animal traceability means the ability to **follow an *animal* or group of *animals* during all stages of its life, cradle-cradle.**

Animal welfare means the **physical and mental state of an *animal*** in relation to the **conditions in which it lives and dies.**

INTERNATIONAL CONVENTION ON THE RIGHTS OF THE CHILD

<https://www.ohchr.org/en/professionalinterest/pages/crc.aspx>

The Declaration of the Rights of the Child, sometimes known as **the Geneva Declaration of the Rights of the Child**, is an international document promoting child rights, and adopted by the League of Nations in 1924 and adopted in an extended form by the United Nations in 1959.

The text of the documentary, as published by the International Save the Children Union in Geneva on 23 February 1923, is as follows (all of these are in accordance with global standards):

1. The child must be given the means requisite for its normal development, both materially and spiritually.
1. The child that is hungry must be fed, the child that is sick must be nursed, the child that is backward must be helped, the delinquent child must be reclaimed, and the orphan and the waif must be sheltered and succored.
1. The child must be the first to receive relief in times of distress.
1. The child must be put in a position to earn a livelihood and must be protected against every form of exploitation.
1. The child must be brought up in the consciousness that its talents must be devoted to the service of its fellow men.

The UN General Assembly adopted the Convention and opened it for signature on 20 November 1989 (the 30th anniversary of its Declaration of the Rights of the Child). It came into force on 2 September 1990, after it was ratified by the required number of nations. Currently, 196 countries are party to it, including every member of the United Nations.

Faith Lesson: Woe to those who interfere with the Most High. Lo, children [are] an heritage of the LORD: [and] the fruit of the womb [is his] reward. Psalm 127:3

MISGUIDED AND MANIPULATED CHILDREN

Once these children are in the hands of the global puppeteers, they are brainwashing into believing they are achieving lofty global goods and social justice never seen upon the face of the earth.

Once the global masters have achieved their control these children will be killed. Notice the above colorful rainbow, the promise of God never to flood the earth, used to promote values that are anti-God and His system.

These children are throwing off the bonds of God to embrace the lies of Satan and the depravity of evil men and women. The next Divine judgement will be executed with fire and those who lead these children astray, well, *it would be better for a millstone to be hung around their necks and they were downed in the sea of the abyss or hell.*

Faith Lesson: Train up a child in the way he should go: and when he is old, he will not depart from it. Proverbs 22:6

THE RISE OF CHILDREN TO POWER

According to biblical prophecy we see children rising to power and putting their elders to shame for the supposed injustices they suffer. Enter **Greta Thunberg** and her cohorts. On September 23, 2019 they filed a legal complaint with to the global justice system:

16 children, including Greta Thunberg, file landmark complaint to the United Nations Committee on the Rights of the Child, Child petitioners protest lack of government action on climate crisis.

POWER OF THE CHILDREN PAWNS IN GLOBAL GOVERNANCE TAKEOVER

Who inserted in the minds of these misguided children that they had certain rights to set international policy. Here is their complaint regarding the Climate Crisis.

Unbeknownst to most people children have been elevated to policy setting status even in the US and military. Take for instance Gen Z and the current military Operating Environment under the PIPS Program where children wield their political and military power:

Faith Lesson: For they that are after the flesh do mind the things of the flesh; but they that are after the Spirit the things of the Spirit. For to be carnally minded is death; but to be spiritually minded is life and peace. Because the carnal mind is enmity against God: for it is not subject to the law of God, neither indeed can be. 16 children, including Greta Thunberg, file landmark climate complaint to UN –(start @ 5:39 stop @ 8:31)

https://www.youtube.com/watch?v=RGf-SBar_r4

NEW YORK, 23 September – Sixteen child petitioners – including Greta Thunberg and Alexandria Villaseñor – from 12 countries around the world today presented a landmark official complaint to the United Nations Committee on the **Rights of the Child to protest lack of government action on the climate crisis.**

The child petitioners – aged between 8 to 17 – allege that Member States’ **failure to tackle the climate crisis constitutes a violation of child rights.** They urge the independent body to **order Member States to take action to protect children from the devastating impacts of climate change.**

“Change needs to happen now if we are to avoid the worst consequences. The climate crisis is not just the weather. It means also, lack of food and lack of water, places that are unlivable and refugees because of it. It is scary,” said Greta Thunberg.

The **complaint was filed through the Third Optional Protocol to the Convention on the Rights of the Child, a voluntary mechanism which allows children or adults on their behalf to appeal directly to the United Nations for help if a country that has ratified the Protocol fails to provide a remedy for a rights violation.**

Announced at a press conference hosted at UNICEF Headquarters in New York, the complaint aims to inspire the urgent action needed to curb global heating and mitigate the impact of the climate crisis.

“Thirty years ago, world leaders made a historic commitment to the world’s children by adopting the Convention on the Rights of the Child. Today, the world’s children are holding the world accountable to that commitment,” said UNICEF Deputy Executive Director Charlotte Petri Gornitzka. **“We fully support children exercising their rights and taking a**

stand. Climate change will impact every single one of them. It's no wonder they are uniting to fight back."

In addition to **Greta Thunberg**, the 16-year-old Swedish climate activist, and **Alexandria Villaseñor**, the 14-year-old American climate activist, the 14 other child petitioners are from Argentina, Brazil, France, Germany, India, Marshall Islands, Nigeria, Palau, South Africa, Sweden, Tunisia and the United States. They are represented by **global law firm Hausfeld LLP and Earthjustice**.

UNICEF supports the child petitioners exercising their right to bring complaints via the communication procedure of the Third Optional Protocol. However, UNICEF is not a party to the complaint. UNICEF is neutral and plays no part in the adjudication process by the Committee on the Rights of the Child.

WHAT ARE THE “RIGHTS OF CHILDREN UNDER THE CONVENTION ON THE RIGHTS?”

<https://www.unicef.org/child-rights-convention/convention-text-childrens-version>

I remember as a youth collecting coins for UNICEF thinking I was helping children around the world have a good life. I was very wrong.

There are **42 children rights** according to this convention.

I find it interesting that there are **42 encampments between the bondage of Egypt and the Promised Land of Freedom.**

In this case we see children forsaking their biblical inheritance of being created in the Divine Image, with their rights etched in stone of the bible, hewn from the Throne of God replacing this with bondage and slavery to a bestial and wicked system that will destroy them.

Whether you have children or not, you need to know what power these children have been given.

THE FEDERAL GOVERNMENT: *MAKE A PLAN*

Make A Plan

Disasters and
Emergencies

[Ready.gov/plan](https://www.ready.gov/plan)

<https://www.ready.gov/plan>

Under the guise or scheme of disaster the federal government has made a plan to **seize your** and the obfuscate the dark and shadowy intent to grab the **children**. The wording sounds flowery and good but underneath there is a pool of wickedness.

- You either have been, or soon will be encouraged to *Make a Plan*.
- You will be encouraged to write this plan down.
- You will also be told to share this plan with a trusted family member or friend.
- **The next step will be to voluntarily submit your plan** to local, state, federal officials in case of disaster.

- The last step will be that **it will be required that you file your plan with all levels of government** to prevent a patchwork approach to preparedness, response, recovery, mitigation for the common good of all peoples.

Very soon under the global animal management scheme you will be required:

- **All private property becomes an asset of federal and global government** with a unique identifier.
- **All biological life must be electronically identified.**
- **24/7 surveillance which demands an implantable sensor**

What else might this *Make a Plan* require? These have all been beta-tested on animal owners:

- For you to file your travel itinerary with the public-private partnership, already in the works if you use the banking system.
- **File an asset/liability form with local, state, federal government** as if you were applying for a house or car loan, in case you incur damages to the planet, society, global good, and so forth.
- **Your Living Will and Health Records** to determine your threat to society and how to dispose of your assets when you are gone.
- **Unfettered access to all your communications and transactions.**
- Locations of your tangible assets.

Faith Lesson: *For I know the thoughts that I think toward you, saith the LORD, thoughts of peace, and not of evil, to give you an expected end. Jeremiah 19:11*

MAKE A PLAN

Make a plan today. Your family may not be together if a disaster strikes, so it is important to know which types of disasters could affect your area. Know how you'll contact one another and reconnect if separated. Establish a family meeting place that's familiar and easy to find.

Step 1: Put a plan together by discussing the questions below with your family, friends or household to start your emergency plan.

1. How will I receive emergency alerts and warnings?
1. What is my shelter plan?
1. What is my evacuation route?
1. What is my family/household communication plan?
1. Do I need to update my emergency preparedness kit?
1. Check with the Centers for Disease Control (CDC) and update my emergency plans due to Coronavirus.
 - Get cloth face coverings (for everyone over 2 years old), disinfectants, and check my sheltering plan.

Step 2: Consider specific needs in your household.

As you prepare your plan tailor your plans and supplies to your specific daily living needs and responsibilities. Discuss your needs and responsibilities and how people in the network can assist each other with communication, care of children, business, pets or specific needs like operating medical equipment. Create your own personal network for specific areas where you need assistance. Keep in mind some these factors when developing your plan:

- Different ages of members within your household
- Responsibilities for assisting others
- Locations frequented
- Dietary needs
- Medical needs including prescriptions and equipment
- Disabilities or access and functional needs including devices and equipment
- Languages spoken

HOW COMPREHENSIVE IS *MAKE A PLAN*?

The proverbial chickens have come home to roost. As Hurricane Katrina was just a twinkle in Mother Nature's eye the government had big plans for her.

I was told there would be no response for the peoples impacted by the brunt of the ravaging storms but that **there were objectives** that would be achieved.

One of these plans was to set into motion **the foundation to seize children under the cover of disaster**. After Kat left devastation a bill was introduced to reunite displaced children with their families.

In October 2006, the President signed into law the **Post-Katrina Emergency Management Reform Act of 2006 (PKEMRA)**, modifying the organizational structure, authorities, and responsibilities of the Federal Emergency Management Agency (FEMA). **PKEMRA and the Stafford Act** mandated that the **National Emergency Child Locator Center (NECLC)** be established within the NCMEC and that procedures be put in place to facilitate the identification and reunification of displaced children with their families.

This morphed into the **Kids in Disaster Well-being, Safety, and Health Act of 2007**, the National Commission on Children and Disasters (Commission) was established in December 2007 by the President and Congress.

Sounds good right? Well, that language is *governmental insider* language known as the **Emergency Clause**. It is well used and well abused, as they say. **What does it do?** It suspends the Constitution at the state and federal level where it pertain to the health, safety and **well-being of children!!!!**

It was determined, as a result of PKEMRA, that **children could be retained (seized) by trusted sources, such as schools, if the environment is unsafe.**

Originally, it was presented as a nuclear event but that has since changed to include **any declared environmental threat** such as **Climate Change** and Coronavirus.

Plans are in place, that **if you show up to get your children, they will refuse to give them to you because of the unsafe environment.**

If, somehow you were able to creatively free your children, **you would be charged with child endangerment and or violence against the child** and face **fines, imprisonment, and possibly even execution** at the state, federal, and international level tribunals.

WHO ARE THE ACTORS?

I spent the entire night before last documenting for you a list of the players. This is not a comprehensive list, but it should give you a place to land your feet to explore the truth of

what I am saying. I did not have the time to go down to the county and local level so each of you need to explore those laws and regulations and legal challenges on your own.

These plans have been operationalized. That means they are in action. They are a plan gone live.

HOW FAR WILL THE FLOW GO?

The stage has been set, the actors in place, and the performance has begun. In government and military, we use flow charts and organizational charts, many I share with you. So how does this all play out?

The Emergency Declaration has been issued.

Your children have already been brainwashed and manipulated into following the sweet melody of global governance, much like following the Pied Piper, even if they were brought up in a faith-based home.

Once your family and /or children have been disrupted from you and their biblical or nuclear value system, they will be placed in a "reeducation camp."

We live in a Post-Human world as the globalists and technological visionaries tell us, and consequently, the children will be told they need to sacrifice their life for the *greater*

good and for the *sins of humanity against the planet*. Most children will buy-into this ideology without question. This is not greater than the Mayan or Aztec peoples who sacrificed children to appease the gods or the torture and murder of children during all Holocausts and genocides.

Your children, our children, might even be given an incentive, or maybe it was already bestowed upon them with the elevation and power they received upon the international stage. **The Beautification of Child Slaughter.**

They will then be led, as lemmings, to their religious ritual religious slaughter to the GAIA-pantheistic gods.

The elite and evil ones will cheer with glee believing that they will have destroyed the last vestiges of the Old World and are ready to cut and paste in the New Humans detached from God and His creation.

These evil ones will meet their judgement. With that I am most assured.

Faith Lesson: There are many devices in a man's heart; nevertheless, the counsel of the Lord, that shall stand. Proverbs 29:21

<https://www.python.org/>

The **BEAST** is animated and comes to life using **fallen angel technology and witchcraft**. The **language** bringing it to life began as the **Python** but has now expanded. Scientists and researchers call it **BEAST 1.00**.

Quick Example

Snakemake workflows are essentially Python scripts extended by declarative code to define rules. Rules describe how to create output files from input files.

<https://snakemake.readthedocs.io/en/stable/>

It now uses **snakemaker coding**. You will clearly see that masks are in the coding, as well as [insidious] plots, augur, auspice and more.

Every word is weaponized and dual use for plausible deniability.

The **guidance and glue** that is used is **Geomancer** platform and **Spellbook**. It is no wonder that people are like under an obedience spell and trance-like state.

Furthermore, **this system will be used within the:**

- Testing
- Vaccination
- Sensory tracing

To **inject the DNA of Satan** into anyone who uses any of the above-mentioned technologies.

You lose your humanity and are **blotted out of any possibility of being written in the Lamb's Book of Eternal Life**. **He does not recognize you as human any longer.**

*The vaccination for the Next Wave is a **SynBio Construct** carrying the very DNA of rebellious Fallen Angels **resulting in physical and eternal death.***

Bluntly put, the deployment of these Nano **SynBio** Entities means that masks, vaccinations, other technologies are useless.

They have been designed as permanent depopulation mechanisms to prevent life in this world and the eternal Hereafter.

Your only option of protection is Psalm 91 under the protective blood of Jesus. The truth is that life is eternal, and you will spend it in heaven or hell. Your choice.

¹Whoever dwells in the shelter of the Most High will rest in the shadow of the Almighty.^[a]

²I will say of the LORD, "He is my refuge and my fortress, my God, in whom I trust."

³Surely he will save you from the fowler's snare and from the deadly pestilence. He will cover you with his feathers, and under his wings you will find refuge; his faithfulness will be your shield and rampart. ⁵You will not fear the terror of night, nor the arrow that flies by day, ⁶nor the pestilence that stalks in the darkness, nor the plague that destroys at midday.

⁷A thousand may fall at your side, ten thousand at your right hand, but it will not come near you. ⁸You will only observe with your eyes and see the punishment of the wicked.

⁹If you say, "The LORD is my refuge," and you make the Most High your dwelling, ¹⁰no harm will overtake you, no disaster will come near your tent. ¹¹For he will command his angels concerning you to guard you in all your ways; ¹²they will lift you up in their hands, so that you will not strike your foot against a stone.

¹³You will tread on the lion and the cobra; you will trample the great lion and the serpent.

¹⁴"Because he^[b] loves me," says the LORD, "I will rescue him; I will protect him, for he acknowledges my name.

¹⁵He will call on me, and I will answer him; I will be with him in trouble, I will deliver him and honor him.

¹⁶With long life I will satisfy him and show him my salvation."

BEAST IN SCRIPTURE

The Beast (Greek: Θηρίον, *Thērion*) may refer to one of two beasts described in the Book of Revelation.

The first beast comes "out of the sea" and is given authority and power by the dragon.

This first beast is initially mentioned in Revelation 11:7 as coming out of the abyss.

Revelation 11:7 King James Version (KJV)

⁷And when they shall have finished their testimony, the beast that ascendeth out of the bottomless pit shall make war against them, and shall overcome them, and kill them.

His appearance is described in detail in Revelation 13:1-10, and some of the mystery behind his appearance is revealed in Revelation 17:7-18.

The Beast out of the Sea

13 *The dragon^[a] stood on the shore of the sea. And I saw a beast coming out of the sea. It had ten horns and seven heads, with ten crowns on its horns, and on each head a blasphemous name. ²The beast I saw resembled a leopard, but had feet like those of a bear and a mouth like that of a lion. The dragon gave the beast his power and his throne and great authority. ³One of the heads of the beast seemed to have had a fatal wound, but the fatal wound had been healed. The whole world was filled with wonder and followed the beast. ⁴People worshiped the dragon because he had given authority to the beast, and they also worshiped the beast and asked, "Who is like the beast? Who can wage war against it?"*

⁵The beast was given a mouth to utter proud words and blasphemies and to exercise its authority for forty-two months. ⁶It opened its mouth to blaspheme God, and to slander his name and his dwelling place and those who live in heaven. ⁷It was given power to wage war against God's holy people and to conquer them. And it was given authority over every tribe, people, language and nation. ⁸All inhabitants of the earth will worship the beast—all whose names have not been written in the Lamb's book of life, the Lamb who was slain from the creation of the world.^[b]

⁹Whoever has ears, let them hear. ¹⁰“If anyone is to go into captivity, into captivity they will go. If anyone is to be killed^(a) with the sword, with the sword they will be killed.”^(b) This calls for patient endurance and faithfulness on the part of God’s people.

The second beast comes "out of the earth" and directs all peoples of the earth to worship the first beast. The second beast is associated with **Revelation 13:11-18** the false prophet.

The two beasts are aligned with the dragon in opposition to God. They persecute the "saints" and those who do "not worship the image of the beast [of the sea]" and influence the kings of the earth to gather for the battle of Armageddon.^[1] The two beasts are defeated by Christ and are thrown into the lake of fire mentioned in **Revelation 19:18-20**.

TECHO BEAST

Well my friends **the beast has emerged from the many waters of the peoples of the earth and up from within the bowels of the Abyss on earth.**

Using ancient fallen angel technology **BEAST** is a cross-platform program for **Bayesian analysis of molecular sequences using MCMC**. Bayesian definition is - being, relating to, or involving statistical methods that assign concept of probabilities or distributions to events.

It is entirely orientated towards rooted, time-measured phylogeny inferred using strict or relaxed molecular clock models. It can be used as a method of reconstructing phylogeny, but is also a **framework for testing evolution**.

Phylogeny according to the Merriam Webster Dictionary is: **the evolutionary history of a kind of organism and the evolution of a genetically related group of organisms as distinguished from the development of the individual organism.**

Simply put scientists, researchers, and globalists the war rages between creation and evolution.

It is easier for haters of God to declare that humanity has come about from a complex web of ET single cell organisms that hitch-hiked to earth called *panspermia* rather than believe that the Living God spoke creation, designed humans, and breathed life into their bodies.

<http://phylonames.org/code/>

As I reported on two years ago a new classification of biological life was made after 10 years of work called the **PhyloCode** usurping the traditional and ancient classification of life the Linnaeus system.

The **PhyloCode** is evolutionary. **It puts humans in the same family tree as birds, arthropods, and dinosaurs.**

In its organizational chart it has space for synthetic life forms, demons, angels, extra-terrestrials, hybrid life forms, and more.

https://www.centerforhealthsecurity.org/our-work/events/2018_clade_x_exercise/

Everyone talks about the pandemic exercise **Event 201**.

The more dangerous pandemic exercise is **Clade X** because the root of this 2018 exercise was a pandemic based upon and **engineered lifeform pandemic**.

The novel coronavirus is **the first wave** so to speak **of engineered lifeform pandemics** that can be known as **pestilence in the biblical sense**. This is in accordance with the three prong or pillar Asilomar Conferences: 1975-Genetically Modify all life on earth. 2010-Geon-Engineering component, 2018-Framework for the BEAST system and AI.

I just got done wading through scientific peer journals. Is it possible that what we think is CV is not technically a virus, as we understand it?

Novel pathogens have been released into the wild (world). They contain combinations of viruses-MERS-SARS-HIV-CORONA and combinations of animals: bats-snakes-pengolins-birds-pigs.

What I am talking about is the deployment of a **Nano Hybrid BioRobotic weapon**, half biological-half robotic, that is hollow with a payload and a mission.

Think of the novel coronavirus (and other new pathogens) as **nanoshells** with infinite combinations of pathogens that can emerge from the payload program contained within the *nanoshell*.

This payload can be: viral, fungal, bacterial, parasitic, chemical, drug, explosive, demon, spirit, possibly even fallen angel or giant DNA.

They are, as in swarms or Legion for they are many, mission is scalable down to precision strikes against a person, even down to the atoms in their body. [It can also strike down whole segments of the immune system or whole groups of peoples](#). It can target ethnicity, religious affiliation, depth of faith, compliant or non-compliant and so forth.

This allows for a justifiable and plausible deniability. The weaponized "virus" is whatever is in the eyes of the beholder and can shape-shift upon command.

The primary stated goal of this whole design is to corrupt the DNA of the host and kill the host, even if it takes multiple passes to kill the host.

<https://www.weforum.org/focus/davos-2020-collection>

That is why the **World Economic Forum** (WEF) and International Committee on Taxonomy of Viruses (ICTV) said there would be high morbidity (sickness) then death.

This would explain why we are seeing reports about a **fake virus**, because it is not a traditional virus. Such as *Singularity's* article, **How Fake Viruses can Help Us make Powerful New Vaccines**. This explains the *CV vaccine construct*, which is not really a vaccine, but rather **a behavior**

These Nano Bio Robotic weapons are **used in conjunction with 5G**.

They were developed using fallen angel technology and witchcraft which we will see momentarily.

They interface as **nodes within the BEAST system** and **the new currency**, because **once it penetrates your God given barriers a person's DNA changes and becomes one with the BEAST/AI management system**.

The BEAST's began to emerge at the dawn of the new millennium:

The **Snakemake** workflow management system is a tool to create reproducible and scalable data analyses. As you can see Snakemake uses weaponized dual- purpose words such as [devious] plots, targets (self-explanatory), transformed (transforming humans from being created in the Divine Image to Satanic entities to fuel the fires of hell), aggregate (the whole versus the individual), and scripts (as in movie or reality productions). Insert Fran experience.

Workflows are described via a human readability using the Python based language. They can be seamlessly scaled to server, cluster, grid and cloud environments, without the need to modify the workflow definition. Snakemake workflows can entail a description of required software, which will be automatically deployed to any execution environment. Execution as in execution of the code, process, or execution of humans in dual-use weaponization of words.

AUGUR OF BIOINFORMATICS

It might surprise you but the mutagenesis and spread of the deployed Nano SynBio weapon is begin tracked and traced by Augur, Nextstrain's Bioinformatics Toolkit. It is a core part of the Nextstrain ecosystem used by all their pathogen builds, and **all source code is available on [GitHub](#)**.

<https://github.com/nextstrain/augur>

Merriam-Webster dictionary **defines *augur*** as: **an official diviner of ancient Rome.**

Here we go into biblical prophecy!

Daniel 2 (the second chapter of the Book of Daniel) tells how Daniel interpreted a dream of Nebuchadnezzar II, king of Babylon. The king saw a gigantic statue made of four metals, from its gold head to its feet of mingled iron and clay; as he watched, a stone "not cut by human hands" destroyed the statue and became a mountain filling the whole world.

The fourth kingdom is Rome, Edom, that was known for its wickedness. Where are we seeing wickedness today? Worldwide. Notice the stone was not cut by human hands. Can you say fallen angel? And a mountain that filled the whole earth is provocative considering **Revelation 8**.

Could it be that as they craft their permutations something akin to a great mountain burning with fire, like what we just saw above in Daniel, falls into the sea kills a third of living creatures and third of ships. I always thought asteroid or comet, but maybe it was an experiment gone bad.

Then the first angel sounded his trumpet, and hail and fire mixed with blood were hurled down upon the earth. A third of the earth was burned up, along with a third of the trees and all the green grass. Then the second angel sounded his trumpet, and something like a

great mountain burning with fire was thrown into the sea. A third of the sea turned to blood, third of the living creatures in the sea died, and a third of the ships were destroyed....Revelation 8:8

The fourth kingdom will be strong as iron. Just as iron crumbles and flattens everything (where have we heard **flatten** recently?) and as iron shatters, all these (God's barriers are being shattered so to put evil to an end) will it crumble and shatter.

Metals and humans that are crumbled and flattened are ready to be refashioned into other forms for the benefit of their owner which transferred from the original owner, God. **Can you say, Syn Bio Entities?**

The disruptions we are experiencing are shattering biological life, the fabric of society, and all experiences of humanity. When a person or metal is shatter it is purely destructive. It breaks in a way that renders the fragments useable in their present form. Enter the hybrid whether pathogen or SynBio replacement of humanity.

The other definition of augur, one held to foretell events by omens. This stands in stark contrast to the prophet Daniel relayed the interpretation to the King of Babylon's dream he did not rely upon necromancers, astrologer's, sorcerers, or divination. He received his interpretation from God, always giving glory to God.

DESIGNING PATHOGENS

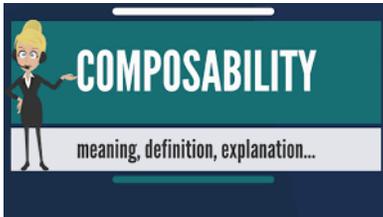

Here is how the researchers and scientists build their designs:

Nexstrain pathogen build sequence:

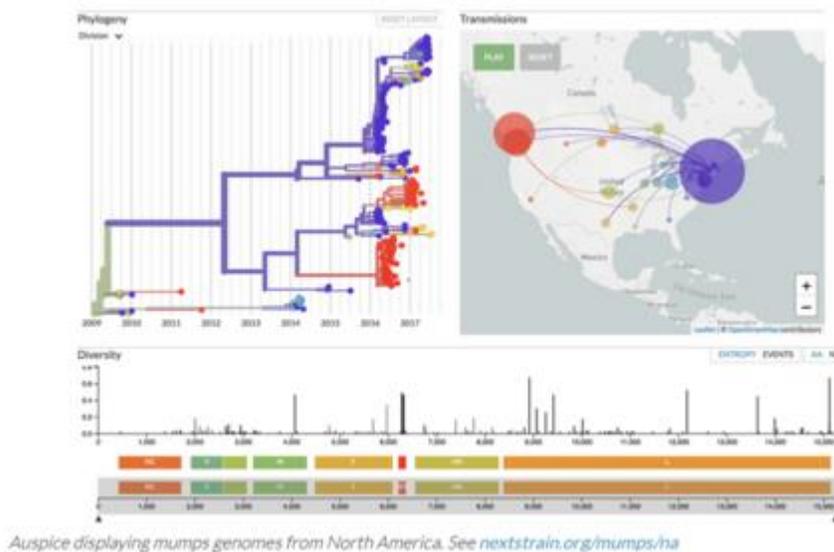

1. Prepare pathogen sequences and metadata
1. Align sequences
1. Construct a phylogeny from aligned sequences
1. Annotate the phylogeny with inferred ancestral pathogen dates, sequences, and traits

1. Export the annotated phylogeny and corresponding metadata into auspice-readable format

Augur provides ways to perform common bioinformatics tasks through a collection of commands. The commands work well both independently and together, embracing the philosophy of composability. - <https://en.wikipedia.org/wiki/Composability>

Auspice displaying mumps genomes from North America. See nextstrain.org/mumps/na

Scientists and researchers have used **Augur** to analyze a bunch of different pathogens with tiny genomes like Zika, to bacterial genomes orders-of-magnitude bigger like tuberculosis.

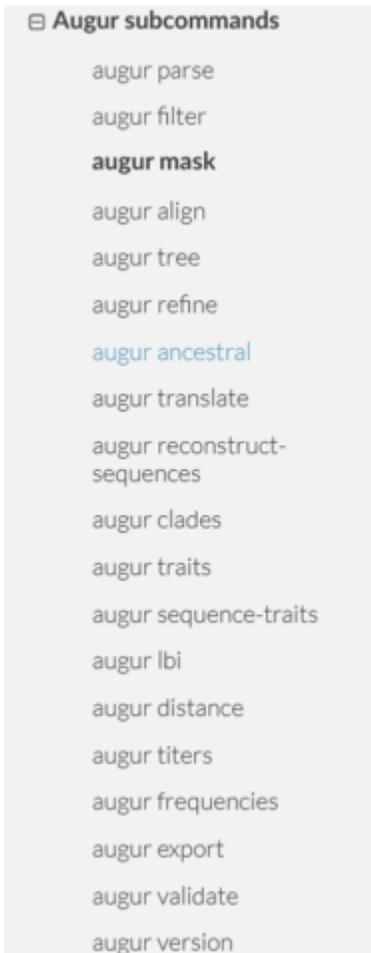

Since we built it to be composable, it's easy to use other code. They have used **BEAST** to replace multiple augur commands, but still visualize the results in *auspice*.

It is time to discover the definition of **auspice** according to **Merriam Webster Dictionary**:

- Kindly patronage and guidance doing research. There is that word *guidance* that we are seeing in many of the novel coronavirus documents.

- A prophetic sign especially a favorable sign. *Haman casts lots and determines that the 13th day of the month of Adar would be the propitious time to annihilate Mordechai and his people. **Book of Esther 3***
- **Today, we have diviners looking to the stars and entities in other dimensions for the times to deploy various missions and actions.**
- Lastly, observation by an augur especially of the flight and feeding, to discover omens. Reading the different tutorials gives them a feel for how powerful these can be, and how versatile their builds can be! This is what Augur does:

And who are the augur users, among the many?

Health and science. Ummm...makes one think, doesn't it?

WHAT ARE THE CLADES?

Clades are **the new life families that include many different species, some thought to be long extinct, some newcomers, and some things you never thought you would ever see.**

Since its emergence in late 2019, SARS-CoV-2 has diversified into several different co-circulating variants.

To facilitate discussion of these variants, we have **grouped them into clades** which you might think of as a big happy family, which are defined by *specific signature mutations*, either by God through His *Laws of Nature* or **weaponized designer pathogens**.

We currently define 5 major clades:

- 19A and 19B emerged in Wuhan and have been dominating the early outbreak
- 20A emerged from 19A out of dominated the European outbreak in March and has since spread globally
- 20B and 20C are large genetically distinct subclades 20A

Their model for data analysis and sharing is for scientists to store the code used for their analysis in GitHub repositories, and if the results are also stored in these repositories they are automatically made available through nextstrain.org/community/ [Link](#)

OPEN SOURCE TOOLS FOR THE COMMUNITY

Nextstrain is a collection of open-source tools to aid in our understanding of pathogen spread and evolution, especially in outbreak scenarios. We have designed these in such a way that they can be used with a wide range of data sources and are easy to replace with your own tooling. Broadly speaking, Nextstrain consists of

- **"Augur"** — a series of composable, modular (Unix-like) bioinformatics tools. We use these to create recipes for different pathogens and different analyses, which are easy to reproduce when new data is available.
- **"Auspice"** — a web-based visualization program, to present & interact with phylogenomic & phylogeographic data. This is what you see when, for example, you visit nextstrain.org/zika, but it can also run locally on your computer.

This architecture allows us to

- perform sequence analysis — including subsampling, alignment, tree-inference, node dating etc., — by running a series of Augur commands in discrete steps.
- use additional tools and scripts within a given bioinformatics recipe to add additional functionality.
- replace modules, or series of modules, with other analysis tools (e.g. BEAST).
- interpret our data — no matter what analysis recipe we used — within Auspice on our computer.
- share our results to collaborators or other scientists through nextstrain.org.
- rerun analysis as new data become available.

They use these tools to provide a continually-updated view of publicly available data for certain important pathogens such as [influenza](#), [Ebola](#), and [Zika](#) viruses. These data are continually updated whenever new genomes are made available, thus providing the most up-to-date view possible.

MOTIVATIONS BEHIND THE PATHOGENS

If pathogen genome sequences are going to inform public health interventions, then analyses must be rapidly conducted and results widely disseminated.

Legal Public

Health interventions include your execution by various means including stabbing you with a sharp object such as a vaccination needle and the more humane execution methods such as gassing and beheading by guillotine as described in ICD 10 which is in force until 2022 when it will be modified.

<https://www.icd10data.com/ICD10CM/EIndex/L/Legal#5672>

Once again, these are **PUBLIC HEALTH LEGAL INTERVENTIONS FOR EXECUTION.**

INTERACTING WITH NEXTSTRAIN'S PHYLOGEOGRAPHIC VISUALIZATIONS

Visualization of bioinformatics results is an integral part of phylodynamics, both for data exploration and communication. **Nextstrain** wanted to build a tool that was **highly interactive, versatile, and usable** as a communication platform to quickly disseminate results to the wider community. **Auspice** is written in JavaScript and is the app that powers all the phylogenomic analysis on nextstrain.org.

One must inquire **are these visualizations reality or virtual or augmented reality, or a figment of the author's imagination?**

Another question is that **by your interaction are you engaging with demons?**

GENERAL DESIGN OVERVIEW

Nextstrain wanted to build a powerful, yet not overly complex visualization tool. Currently this is centered around several “panels”. These allow them to display relationships between isolates such as their phylogenetic relationships, putative transmissions on the map, and variability across the genome. Color is used consistently throughout the app in order to link different panels. The generator of the data controls which traits are able to be visualized. For

instance, transmissions can be turned off if the data is not informative. A number of controls are made available in a sidebar to control the time period viewed, the layout of the tree, etc.

COMMUNICATING RESULTS USING NARRATIVES

Narratives are a method of data-driven storytelling just like a movie script! They allow scientists (or anyone!) to author content which is displayed alongside the "normal" view of the data. This content drives the way in which data is displayed, so instead of the user changing how things are displayed, the view automatically changes as you move between paragraphs in the narrative. This allows you to communicate results with the appropriate views into the data, whilst maintaining the ability for the user to jump back to the "normal" viewing mode and interact with the data.

Narratives are a new feature and there may still be bugs. We're aiming to publicize this feature as soon as we have ensured everything's working as desired.

HOW TO WRITE A NARRATIVE

A narrative is simply a Markdown that can be manipulated with some quirks. "Views" into the data are defined by specifying a **Nextstrain URL** in each paragraph's header which represents this view.

"BUILD" AN EVOLVING PATHOGEN

Sorry, when I think of constructing a pathogen, I think of the Build a Bear store, where beloved teddy bears were designed for my grandchildren. Back to the topic at hand.

Nextstrain's focus on providing a *real-time* snapshot of evolving pathogen populations necessitates a reproducible analysis that can be rerun when new sequences are available. The individual steps necessary to repeat analysis together comprise a "build". Because no two datasets or pathogens are the same, we build Augur to be flexible and suitable for different analyses. The individual Augur commands are composable, and can be mixed and matched with other scripts as needed. These steps, taken together, are what we refer to as a "build".

Example: The [Zika virus tutorial](#) describes a build which contains the following steps:

- Prepare pathogen sequences and metadata
- Align sequences
- Construct a phylogeny from aligned sequences
- Annotate the phylogeny with inferred ancestral pathogen dates, sequences, and traits
- Export the annotated phylogeny and corresponding metadata into auspice-readable format and each of these can be run via a separate augur command.

SURELY, YOU DO NOT MEAN **TECH WITCHCRAFT?**

*Photo: Boeing: **No cockpit** mars the clean lines of this unpiloted blue streak.*

As reported in the dawn of 2020 America sent a new breed of jets to Australia to help them fight their wildfires with witchcraft technology. That is where we are friends.

These bad boy aircraft are not drones. They are autonomous entities and they make their own

decisions.

What are the capabilities of these aircraft?

Geomancer is an open-source library for geospatial feature engineering. It was developed by Thinking Machines to work with geospatial data: [identifying gaps in OpenStreetMap \(OSM\)](#), and providing [geospatial analytics for their clients](#), and harnessing machine learning to [estimate poverty from satellite imagery](#). This program can locate you down to your home and while traveling. This AI program can determine everything from your quality of life (health) to income level and so much more. It knows your most intimate secrets.

Geomancer is engineering to scale which translates it looks at the big picture and drills down to the infinitesimal scale. **Built into the program is a feature of primitives called [Spells](#)**. It also has library capability featuring *Spellbooks*, a great way for their clients to store and save features their experiments.

Geomancer's Core API is powered by an *SQLAlchemy* backend that handles the translation of a *Spell* into a SQL dialect. Alchemy is an ancient branch of natural philosophy, modern chemistry and pharmacology; philosophical and proto-scientific tradition practiced throughout Europe, Africa, and Asia. Its aim was to achieve the transmutation of the base metals into gold. Technologically speaking, the elite are using this technology to drain the pockets of all other people making them wealthier.

A **SpellBook** is a collection of *spells* that can be sequentially cast and merged in a single data frame.

You need to understand this geometric grid system that has been put in place is not for benevolence. It is a piece in the final puzzle for destruction. It is useful for Geomancer's clients to have a feature-collection (library) that they can reuse or share with other people: from geomancer.spells import DistanceToNearest, NumberOf from geomancer.spellbook import SpellBook from tests.conf test import sample_points# Create

LAST THOUGHT

Are you going to lay down (sacrifice) your life and blood on the altar of the **virtual BEAST** who seeks to devour and destroy you?

I plead with you to lay down your life for the Good Shepherd, Jesus, who loves, values, and cares for you. He shed His blood for you, what more can He do to prove His love for you?
